

ARKANSAS
FOOD BANK
FOOD RECALL

DETAILS BELOW

Dear Members,

The purpose of this email is to inform you about an Important Product Recall. Please carefully read the recall message below.

Agencies participating in the MealConnect Program.

Your agency could have picked up this product from your retail partner. Please, check all on-hand inventory at your facility to find out if there is any recalled product(s). If there is recalled product on hand, please dispose of it immediately. The product disposal instructions are below.
Product Disposal Instructions:

- Put all recalled product(s) in a garbage dumpster that can be locked; or
- Open each package and dump the product in a dumpster

Keep all Important Product Recall information on file for one year. We want to ensure that no one in the community, (i.e. our homeless and transient community) is able to access and consume this product.

Company Announcement

WASHINGTON, Jan. 5, 2025 – The U.S. Department of Agriculture’s Food Safety and Inspection Service (FSIS) is issuing a public health alert due to concerns of frozen, raw ground beef products that may be contaminated with foreign material, specifically hard plastic and metal. FSIS is issuing this public health alert to ensure that consumers are aware that this product should not be consumed. A recall was not requested because the product is no longer available for purchase.

The frozen, raw ground beef items were produced on December 10, 2024. The following product is subject to the public health alert [[view label](#)]:

- vacuum-sealed packages weighing approximately one pound containing “Turner Farm”, “STOCKYARDS PACKING COMPANY GROUND BEEF” and lot code 241210.

The product bears establishment number “EST. M2035” inside the USDA mark of inspection. The product was shipped to one retail location at Turner Farm, 7400 Given Road, Cincinnati, Ohio, 45243.

The problem was discovered after the firm notified FSIS that it received a consumer complaint reporting that pieces of hard plastic and metal were found in the raw ground beef product.

There have been no confirmed reports of injury or illness due to consumption of this product.

Anyone concerned about an injury or illness should contact a healthcare provider.

FSIS is concerned that some product may be in consumers' refrigerators or freezers. Consumers who have purchased these products are urged not to consume them. These products should be thrown away or returned to the place of purchase.

Consumers and members of the media with questions about the public health alert can contact Andy Korb, Owner, Stockyards Packing Co. LLC at 513-312-0648 or andy.korb@theyardsOH.com.

Consumers with food safety questions can call the toll-free USDA Meat and Poultry Hotline at 888-MPHotline (888-674-6854) or send a question via email to MPHotline@usda.gov. For consumers that need to report a problem with a meat, poultry, or egg product, the online Electronic

Consumer Complaint Monitoring System can be accessed 24 hours a day at <https://foodcomplaint.fsis.usda.gov/eCCF/>.

* We believe that none of the product being recalled were processed or offered through the national office

* We strongly encourage you to notify your agencies within one business day from receipt of this notice.

* ALL cased and uncased inventories, both at the member level and agency level, need to be checked. This product may have entered member and agency warehouses through salvage, local donations, TEFAP, local purchases, retail pickups, food drives, or other avenues.

* For additional local details, please contact the Health Department(s) for the area(s) your food bank serves.

About Feeding America Recall Notices

The Feeding America national office issues notifications of all national Class I and II recalls--those involving a health hazard situation in which there is reasonable probability that eating the food will cause health problems or death--and other recalls that may affect the safety of food supplied to network members.

The national office strongly encourages all member product solicitors, operations managers, and others involved in food and grocery distribution to regularly consult resources provided by the United States Food and Drug Administration (FDA) at <https://www.fda.gov/safety/recalls-market-withdrawals-safety-alerts>, and the United States Department of Agriculture (USDA) at <https://www.fsis.usda.gov/recalls>. Additionally, members can often receive information on national, state, and local recalls by contacting their local health departments.
