

WE NEED YOUR HELP!

Who are we looking for?

- Parents (or legal guardians) and their 8*- 10 year old child
- Parents must currently use tobacco (cigarettes, cigars, pouches, smokeless, vapes, etc.)
- Families must live in a rural Arkansas county

*7-year-olds who will turn 8 within 6 months may qualify!

How do I find out more?

What are we doing?

We want to learn how to prevent tobacco use and vaping in children.

Why are we doing this?

We want to improve a program focused on preventing tobacco use in children whose caregivers use tobacco.

What do you have to do?

You and your child will complete a survey, review a free copy of a tobacco prevention program, and participate in a group discussion or interview. Participation takes about 3 hours.

Will I receive compensation?

Families can receive up to \$100 for their time, if they complete all study parts.
